I. ERC Scientific Council decides changes to the evaluation forms and processes for the 2024 calls

The ERC Scientific Council decided on changes to the ERC's application forms and evaluation procedures for the 2024 calls.

The current CV and Track Record templates will be combined and simplified and applicants will be able to add short narrative descriptions to explain the information provided. Applicants will also be invited to explain career breaks or unconventional career paths and to describe exceptional contributions to the research community. One effect of these changes is that the Profiles of the ERC Principal Investigators which appeared in previous Work Programmes will no longer be necessary. The Scientific Council has furthermore decided to explicitly weigh the project proposal more than the past achievements of the applicant during the evaluation.

Full details will be found in the ERC Work Programme 2024 and the associated guidance documents.

More information: [ERC Scientific Council decides changes to the evaluation forms and processes for the 2024 calls | ERC \(europa.eu\)](https://erc.europa.eu/erc-scientific-council-decides-changes-to-the-evaluation-forms-and-processes-for-the-2024-calls)

II. Modification of Horizon Europe work programme 2023-2024 adopted

The European Commission has adopted the new, updated version of the Horizon Europe work programme 2023-2024.

The updated documents are already available at the Funding&Tenders Portal: <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/how-to-participate/reference-documents;programCode=HORIZON>

III. Updated version of the draft Annotated Model Grant Agreement

An updated version of the draft Annotated Model Grant Agreement has been published on the EC Funding & tender opportunities portal. On p. 313-317 (updated Annex 5 for Co-funded Partnerships) the specific rules for Co-funded Partnerships are now explained in more detail, including information on the involvement of Research Performing Organisations (RPOs) (Information barrier/ firewall) or on the joint selection list (identical scores).

More information: https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/common/guidance/aga_en.pdf

IV. Lump Sum Funding in Horizon Europe webinar

Title: Lump Sum Funding in Horizon Europe: How does it work? How to write a proposal?

Date: 11 May 2023, from 10:00am to 12:00am (CEST, Brussels time)

Target group: Applicants and beneficiaries who are or will be involved in lump sum grants

Event website: <https://ec.europa.eu/research/participants/docs/h2020-fundingguide/other/event230511.htm> (remote only, no need to register)

V. Info session on Horizon Results Booster – steering research towards a strong societal impact

Date: 24 May 2023, from 10:00am to 12:30am (CEST, Brussels time)

Event website: [Info session on Horizon Results Booster – steering research towards a strong societal impact \(24 May 2023\) \(europa.eu\)](#) (no need to register)

VI. Coordinators' Day on Horizon Europe Grant Management

Date: 8th June 2023, from 09:30am to 13:00am (CEST, Brussels time)

Event website: <https://ec.europa.eu/research/participants/docs/h2020-funding-guide/other/event230608.htm> (remote only, no need to register)

VII. Japan Society for the Promotion of Science International Fellowships for Research in Japan

Japan Society for the Promotion of Science (JSPS) provides fellowship programs for overseas researchers who have an excellent record of research achievements to conduct collaborative research, discussions, and opinion exchanges with researchers in Japan. The programs are intended to help advance the overseas researchers' research activities while promoting science and internationalization in Japan.

The "JSPS International Fellowships for Research in Japan" consists of two programs: "Postdoctoral Fellowships for Research in Japan" for young researchers and "Invitational Fellowships for Research in Japan" for mid-career and senior researchers.

Detailed information about the programs here: https://www.jsps.go.jp/english/e-inv_researchers/index.html

VIII. EARTO webinars

- **26 April 2023** (11.00 – 12.00): **EARTO Webinar on Security & Defence newly published paper**, EARTO Working Group Security & Defence Research Core Team, please [register here](#)
- **4 May 2023** (10.00 – 11.00): **EARTO Webinar on Healthcare R&I Position Paper**, EARTO Working Group Emerging Technologies for Healthcare Core Team, please [register here](#)

IX. Re-launch event of the Hydrogen Valleys Platform 2.0

This online COST Info Day is open to all researchers and innovators at any career stage and from any field of research, especially young researchers, as well as R&I staff. The aim is to inform researchers and innovators about how to connect with COST Actions or submit a COST Action proposal, the role and impact of the COST programme, and the benefits of participating in COST for researchers' careers, with a focus on young researchers.

For organisational reasons, registration through this webpage is necessary to receive the link timely to join on 24 May.

Date and time: May 24, 2023, 10:00 - 11:30, online

More information: [Online COST Info Day - COST](#)

X. Partner searchers

- **Partner search Cluster 5 from Latvia**

[N-LAB is](#) a creative platform which brings together industrial designers, extreme environment architects, robotics and electronics experts, with an aim to develop innovative robotic solutions that perform inconvenient, dangerous or time- and resource-saving tasks for humans in challenging and extreme environments. They would like to join to an ongoing project consortium as non-governmental organization. Water robot "iRAFT" is the main priority area for N-LAB.

Contact: **Gatis Vectirans**,

KAM robotic Development, N-LAB research and development centre, AB dambis 2, Riga

LATVIAE-mail address: gatis@nlab.lv

- A **French RTO** specialized in ceramics wishes to join a consortium for the following Horizon Europe calls on batteries: HORIZON-CL5-2023-D2-02-02 and/or, HORIZON-CL5-2024-D2-02-02. This RTO proposes to bring to a consortium its strong skillset with an innovative coating process named Aerosol Deposition Method, presenting many advantages contributing to the technical and environmental challenges of these calls. They are looking for consortia composed of other RTOs, academic partners, and companies. <https://een.ec.europa.eu/b2b/profile/8e68ca38-54ee-477c-912c-018747cd3850>
- **Turkish Battery Research Group** is looking for consortia to help using their skills which include a multidisciplinary approach to create practical engineering solutions in its area and collaborates with basic sciences. The group's work is based on understanding the production, structure, composition, and properties of materials, creating novel materials based on these properties, and proposing effective and sustainable substitutes. <https://een.ec.europa.eu/b2b/profile/bbbf7718-3c20-4f57-9d61-018721f2dbef>
- A **Greek University** with expertise in analytical techniques seeks partners in the mining industry for a Horizon Europe proposal that addresses the continuous, cost-efficient, and advanced monitoring of pollution in mining areas. <https://een.ec.europa.eu/b2b/profile/04ceaa2f-51cf-4dac-a498-0187475f2257>
- **URGENT PARTNER SEARCH - Consortium sought under the call Future-proofing historical buildings for the clean energy transition**

The municipality of a large town based in Northern Italy is looking to join a consortium under the call HORIZON-CL5-2023-D4-01-02 Future-proofing historical buildings for the clean energy transition
<https://een.ec.europa.eu/b2b/profile/25eb89cf-dceb-40d2-9fab-018737e52858>

- **A Slovak university is offering expertise to participate as a partner in a HORIZON-JTI-CLEANH2-2023-1 (HORIZON-JTI-CLEANH2-2023-1)**

The IOEP with the Energy group is among other topics active in the field of micro-/nanoelectronics, photonics, sensoric and energy storage and conversion is now looking for a consortium with focus on HE calls. HORIZON-JTI-CLEANH2-2023-01-01: Innovative electrolysis cells for hydrogen production HORIZON-JTI-CLEANH2-2023-01-04: Photoelectrochemical (PEC) and/or Photocatalytic (PC) production of hydrogen HORIZON-JTI-CLEANH2-2023-01-03: Advances in alkaline electrolysis technology
<https://een.ec.europa.eu/b2b/profile/5528fa87-184e-4b10-9e57-0187032bef9d>

XI. International Science Council events

- ISC Distinguished Lecture Series: “Basic Sciences for Sustainable Development: ISC continues the “Distinguished Lecture Series on Basic Sciences for Sustainable Development” to promote the International Year of Basic Sciences for Sustainable Development and to highlight the importance of basic sciences for the ISC community:
 - **18 April**, 14:00 UTC: “Geospatial Information-Enabled SDGs Monitoring”
<https://council.science/events/geospatial-information-enabled-sdgs-monitoring/>
 - **16 May**, 14:00 UTC: “From the Theory of Ice Ages to IPCC climate projections”
<https://council.science/events/theory-ice-ages-ipcc-climate/>
- 6–9 June: Global Young Academy Annual General Meeting and International Conference of Young Scientists – <https://council.science/events/intl-conference-young-scientists/>
- 15–23 September: 30th Quadrennial Session of the International Commission on Illumination – <https://council.science/events/cie2023/>
- 19–22 September: 76th Annual Conference of The World Association for Public Opinion Research – <https://council.science/events/76th-annual-conference-wapor/>

*Kérjük szíves közreműködésüket abban, hogy a tájékoztató azon részei, amelyek a kutatóhely számára relevánsak, megküldésre kerüljenek annak vezetősége, illetve minden érdeklődő és érdekelt munkatárs részére.
Együttműködésüket köszönjük!*
