VI. Annual Research Conference 2024	3
VII. MSCA Staff Exchanges Actions	3
VIII. Open calls and applications	4

I. LIFE Partnerek: közvetlen uniós programok önerő-támogatását célzó felhívás megjelenése

2024. október 1-jén megjelent a Közigazgatási és Területfejlesztési Minisztérium közvetlen uniós programok önerő-támogatását célzó, 2024. évre vonatkozó felhívása. A támogatás célja, hogy elősegítse a magyar pályázók részvételét a közvetlen uniós forrásokból, növelve ezzel Magyarország részesedését ezekből az alapokból. A felhívás lehetőséget biztosít a 2021-2027 programozási időszakra már benyújtott pályázatok megvalósításához szükséges önerő hazai forrásból történő társfinanszírozására.

A felhívás részletei és a kapcsolódó dokumentumok [itt](#) érhetők el, mindazonáltal támogatási igénnyel, a támogatási folyamatokkal és az elszámolással kapcsolatos részletes információkat a www.palyazat.gov.hu a www.kormany.hu valamint a <https://kormany.hu/kozigazgatasi-es-teruletfejlesztési-miniszterium/projektek> oldalakon elérhető „Támogatási és elszámolási útmutató” rovatban tekinthetik meg.

További kérdés esetén érdeklődjének a lebonyolitoEU@szechenyiprogramiroda.hu címen.

II. Women in senior leadership: Trailblazers in international research management

Organised by NCURA Region VIII, this event will spotlight the exceptional female talent within NCURA Region VIII and the international research management community with the opportunity to listening a panel of leaders who are making a significant impact in the field of research management.

Whether potential participant is a Region VIII member or a non-NCURA attendee, this event is open to all who wish to engage in meaningful discussions about leadership, innovation, and the future of research management.

Place: **Online**

Date: **16 October 2024, 9:00 – CET**

You may find more information about the event [Here](#).

III. EARMA: Promoting European cooperation in developing responses to research security challenges: Online Event Series

Operationalising “research security” measures has become a defining challenge for research organisations and is one that disproportionately affects research managers as the need for enhanced due diligence and engagement with regulatory compliance measures increases significantly.

This online event series aims to address the needs of research managers identified at the EARMA research security summit in Odense, Denmark. The presenters will host three free online events on key research security topics for European research managers which are the followings:

- Research security risks: insider threats (**21 October 2024**)
- Resources for managing research security risks (**15 November 2024**)
- Products to support research security management (**12 December 2024**)

Each session will provide practical support to research managers including discussion of case studies, signposting to publicly available tools and resources, and commercially available products.

You can read more about the event series [Here](#).

IV. Computational social science conference

Barcelona Super Computing Centre (BSC) and the Committee on Data (CODATA) of the International Science Council are co-organizing the *Computational Social Science Conference: innovative methods, research workflows and data stewardship* which will take place in Barcelona on 28-29 October 2024.

The conference brings together the communities involved: the domain and the data experts. The first day will be dedicated to new methods at the cutting edge of advanced computational social science (CSS). The second day will explore enablers for CSS, focussing on data policies, data access, data stewardship, and the attendant technologies and standards. An important topic throughout the conference will be the issue of transparency and reproducibility and how this can be demonstrated in CSS. Possible outcomes of the conference will be a policy paper and a research paper collection to sustain conversations between researchers in CSS and the technologies that enable this research.

Date: **28-29 October 2024**

Place: **Barcelona, Spain**

For more information about the conference, click [Here](#).

V. Frontiers Planet Prize, third edition: Applications open

The ISC partners for the third year with the Frontiers Planet Prize in recognizing and rewarding exceptional scientists working in sustainability science. Three prizes worth a total of USD 3 million will be awarded to the world's most innovative sustainability scientists - across all domains of science - who are able to offer globally scalable solutions which protect and restore planetary health.

The Frontiers Planet Prize is a global competition for scientists and research institutions to propose solutions to help the planet remain within the safe operating space of any one or more of the 9 planetary boundaries. Launched by the Frontiers Research Foundation on Earth Day 2022, the prize aims to mobilize nations and the global community of scientists conducting research on earth system science

The Planet Prize will honour research published in established peer-reviewed scientific journals in the past two calendar years (date of acceptance: 1 November 2022 to 31 October 2024) that has the greatest potential to help keep the Earth system within planetary boundaries. All submitted research must be in English.

Deadline: **1 November 2024**

For more information about the call and the application, click [Here](#).

VI. Annual Research Conference 2024

The Annual Research Conference (ARC) is the European Commission's flagship research forum that brings together leading researchers in economics and policymakers. The 2024 edition of the Annual Research Conference aims to contribute to the understanding of the implications of ongoing trends in global trade, capital allocation and incentives for innovation and investment, low-carbon technologies, and the costs and benefits of industrial policies.

The conference aims to facilitate a lively exchange between researchers and policymakers and will feature the presentation of papers selected by the Scientific Programme Committee. Discussion on scientific contributions will be held in parallel sessions.

Webstreaming of the event will be available.

Place: **Hybrid (Ispra, Italy)**

Date: **21-22 November 2024**

You may find more information about the conference [Here](#).

VII. MSCA Staff Exchanges Actions

MSCA Staff Exchanges promote innovative international, inter-sectoral and interdisciplinary collaboration in research and innovation through exchanging staff and sharing knowledge and ideas at all stages of the innovation chain. The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps turn ideas into innovative products, services, or processes.

Staff Exchanges are open to all domains of research and innovation, chosen freely by the applicants, and have a strong focus in interdisciplinary, international and intersectoral cooperation. Staff Exchanges are highly international and intersectoral projects implemented by consortia involving several organisations from the EU and non-EU countries. To be eligible, consortia must consist of at least three organisations from three different countries and two of them must be located in different EU Member States or Horizon Europe associated countries. Organisations from all socioeconomic sectors in any country can apply to Staff Exchanges including research institutions and infrastructures.

The European Research Executive Agency (REA) will be organising an information day for potential applicants on **15 November 2024**.

Application deadline: **5 February 2024**

For more information about the call, the application procedure and eligibility criteria, click [Here](#).

VIII. Open calls and applications

Az alábbiakban tájékoztatást adunk azon nyitott eseményekről és pályázatokról, melyek az előző hírlevelekben megjelentek.

Kérjük szíves közreműködésüket abban, hogy a tájékoztató azon részei, amelyek a kutatóhely számára relevánsak, megküldésre kerüljenek annak vezetősége, illetve minden érdeklődő és érdekelt munkatárs részére.

Együttműködésüket köszönjük!
