**I. Europe 2035 - konferencia Bécsben**

2024. november 18-án kerül megrendezésre az „*Agenda Europe 2035*” című esemény a bécsi városházán (Wiener Rathaus), mely azt vizsgálja, hogy az információs-kommunikációs technológiai (továbbiakban: IKT) szolgáltatások miként járulhatnak hozzá Európa biztonságos és versenyképes jövőjéhez, illetve a köz- és a magánszektor szereplői hogyan tudják hatékonyan összehangolni ezeket a folyamatokat.

Az Agenda Europe 2035 az IKT és a digitalizáció vezető eseménye a magán- és a közszféra döntéshozói számára. A 2010-ben indult konferenciasorozat célja, hogy bemutassa, milyen KIT szolgáltatásokat nyújtanak a köz- és a magánszektor szereplői, milyen hasonlóságok adódnak ebből, illetve miként lehet hatékonyan összehangolni ezeket a folyamatokat.

A konferencia német nyelven zajlik, a részvétel ingyenes.

Időpont: **2024. november 18.**

Helyszín: **Wiener Rathaus, Bécs, Ausztria**

Az esemény programját [itt](#) találhatják, míg regisztrálni az alábbi [Linken](#) tudnak.

## II. ISC GeoUnions Distinguished Lecture Series

Following the successful distinguished lecture series launched in 2022 in support of the International Year of Basic Sciences for Sustainable Development (IYBSSD), the International Science Council GeoUnions are launching a new lecture series in recognition of the ratification by the United Nations of the International Decade of Sciences for Sustainable Development (IDSSD). The lectures are aimed at highlighting the importance and role of science in achieving the Sustainable Development Goals and will be of interest to researchers and students.

The second event within the relaunched ISC-GeoUnions Distinguished Lecture Series will be held on 12 November on the topic of “*Antimicrobial resistance in the ecosystem – A One health approach*” presented by Prof. Yongguan Zhu, ISC Fellow and member of the ISC Standing Committee for Science Planning.

Attendance is free.

Date: **12 November 2024, 10:00 AM UTC**

Place: **Online**

For more information about the webinar, click [Here](#).

## III. The European Framework Programme for Research and Innovation: increasing participation and broadening horizons

*The European Framework Programme for Research and Innovation: increasing participation and broadening horizons*, organised jointly by the Hungarian Presidency of the Council of the EU and the General Secretariat of the Council. It will bring together national and EU policymakers, leaders of research performing organisations and research support services from countries of the European Research Area, representatives of associations of research managers, technology transfer officers, liaison officers, and other relevant stakeholders.

The aim of this event is to discuss and share good practices in European research and innovation collaboration at the institutional, national and EU levels. During two panel discussions, attendees will look into policy measures to overcome fragmentation in the European Research Area (ERA) and increase participation in the EU Research & Innovation Framework Programme and will also examine the role of excellent research support in improving participation in framework programmes.

Date: **14 November 2024, 14:00-18:30 CET**

Place: **Press room, Europa building, Rue de la Loi / Wetstraat 165, Brussels**

For more information and registration, click [Here](#).

## IV. Marie Skłodowska-Curie Actions (MSCA) Staff Exchanges Information Session

The MSCA Staff Exchanges is the most international and intersectoral initiative within MSCA, promoting collaboration and knowledge sharing among academic and industrial organizations across borders through research projects that involve the mobility of researchers and staff.

Those who are interested can now register for a web-based information session where the European Research Executive Agency (REA) will provide in-depth information about the key features of the Staff Exchanges Action and how to apply to our call for proposals. Furthermore, there will be provided a live Q&A session to ask questions, and interested attendees may also join in the MSCA Staff Exchanges 2024 Call Brokerage in the afternoon to find unique opportunities to establish future collaborations and consortia for MSCA Staff Exchanges proposals.

To better tailor the event to participants needs, please fill in this [Survey](#) and ask your questions in advance or live via [Slido](#) (event code #SE2024).

Date: **15 November 2024, 10:00-12:30 CET**

Place: **Online**

For more information about the session, click [Here](#).

## V. SCOSTEP Visiting Scholar (SVS) Program

The SVS program is a capacity building activity of the Scientific Committee on Solar-Terrestrial Physics (SCOSTEP) with the aim of providing training to graduate students in well-established solar terrestrial physics institutes, for periods of one to three months. The training will help the awardees advance in their career in solar-terrestrial physics using the skills they learned during the training.

The program is open to applicants from all countries but with an emphasis on applicants from developing countries and is limited to master's and PhD students with the requirement that the recipient has not received a PhD at the time of application to the program. Interested candidates should contact one of the SVS program hosts; develop a project and work out the details of the visit. Once the applicant and host agree on a visit, the applicant needs to prepare an application package.

SCOSTEP will provide the airfare, while the host institute will provide living expenses. Please note that the 2025 SVS awardees will have until 30 June 2026, to complete their training program.

Application deadline: **15 February 2024**

You can read more about the program [Here](#).

## VI. Open calls and applications

Az alábbiakban tájékoztatást adunk azon nyitott eseményekről és pályázatokról, melyek az előző hírlevelekben megjelentek.

| Name  | Date               | Place            | Deadline        | Links                |

| <i>MSCA Staff Exchanges Actions</i>  |                     | 5 February 2024          | <a href="#">Link</a> |

Kérjük szíves közreműködésüket abban, hogy a tájékoztató azon részei, amelyek a kutatóhely számára relevánsak, megküldésre kerüljenek annak vezetősége, illetve minden érdeklődő és érdekelt munkatárs részére.  
Együttműködésüket köszönjük!
